

**Minutes from AYC KHF Handicap Committee Working Meeting
Mar 13, 2007**

HC Committee Attendance: J. Johnstone
R Meyers
R. Shull
J. Welles
J. Maddalozzo
T. Lappin

Observers S. Vaughn

1. Call to order at 7:30 PM.
2. We looked at 1 new PHRF application for the FT10 giving a provisional rating which is subject to review anytime during the first two quarters of racing. Since this is a new boat to Lake Travis, we looked at information provided by the owner as well as what handicaps other PHRF fleets have given to this design and other boat types relative to the same boats on Lake Travis. Lake Travis ratings are about 3 seconds lower than the same boat handicap in another fleet. In order to maintain the same relative difference between the FT 10 and other boats with a longer track record, we decided to issue a provisional rating of 48 sec per mile. This rating will be reviewed based on data collected during the first 2 quarters of Racing on Lake Travis.
3. We Converted 3 Immediate ratings given at past regattas to official ratings and renewed 6 ratings without changes. (see Table, next page)
4. The committee agreed to place the Capri 25 class under review. We will begin collecting data on the performance of this boat relative to others and its handicap in other PHRF fleets compared to other KHF boats sailing on Lake Travis
5. The next meeting will be a working session on April 10
6. The Handicappers for the Spring regatta on April 21 will be Jim Johnstone and Ray Shull.
7. The meeting was adjourned at 8:15
